BAD ECZEMA ON BABY

Read one Solid Story. Itching Awful.
Read to the Hands to Cures.
Cured by Cuticura.

Our little boy broke out on his head with a bad
form of eczema, when he was four months old.
We tried three doctors but they did not help him.
We then used your Cuticura Remedies, and
after using them eleven weeks exactly accord-
ing to directions, he began steadily to improve, and
after the use of the lotion for seven more his head was
entirely well. When we began using it his head
was a solid sore from the crown to his eyebrows.
I was also all over his ears, most of his face, and
small places on different parts of his body. There
were sixteen weeks that we had to keep his hands
tied to the cradle, and hold them when he was to
keep up; and had to keep mittens on his hands to
keep his fingers from pulling out the hair, as he would
scratch if he could in any way see his hands loose.
We know your CUTICURA REMEDIES cured him.
We feel safe in recommending them to others.
GEO. H. & J. A. HARRIS, Webster Ind.

Scrofula Cured

I have a sister younger than myself whose
whole body was covered with scrofula so we, from
head to foot. She could not sit or stand at night and
had no peace by day. We tried advised her to try
the CUTICURA REMEDIES. She did so, and they
cured her. DORA B. EAVINUS.

SPECIAL DISPATCHES TO PROSPECTOR.

FEBRUARY 17.

In New York to-day silver was
quoted at \$1.00, lead, \$1.40; and cop-
per, \$14.35.

A petition will be sent from Sonora
to the Mexican Congress to abolish
the free list to colonists at Ensenada.

No meeting of Legislature yesterday.
Met to-day at 3 o'clock and probably
adjourned again on account of death
of Gen. Sherman.

The Sierra Madre Silver Mining Co.
of Los Angeles filed articles of incor-
poration yesterday, with a capital
stock of \$2,000,000.

Anxiety is expressed in New York
as to the safety of the Lumboltz ex-
pedition, which left Arizona to explore
the Sierra Madre mountains.

The Central American mission has
been divided into two missions, with
salaries of \$10,000 for each minister,
and an increase of the Mexican mis-
sion from the second to the first grade.

Although the whisky trust people
still maintain that Geo. Gibson is en-
tirely innocent of conspiracy to de-
stroy Shufeldt's distillery, the general
public has come to the conclusion
that he is guilty.

The people of North Dakota have
applied to the Indian bureau for per-
mission to remove from the Sioux
Reservation the log cabin which was
the home of Sitting Bull. The pur-
pose is to add it to the collection of
Indian curios which will form a part
of the North Dakota exhibit at the
World's Fair. The permission will be
granted.

Lieut. J. M. T. Pastello, United
States Army, of the 7th Cavalry, who
recently distinguished himself at the
battle of Wounded Knee, left for Ant-
werp yesterday on the steamship
Friesland. The lieutenant has re-
ceived a leave of absence of a year
and goes to see his brother, who is the
United States Consul at Dusseldorf.
Pastello is the crack champion rifle
shot of the United States army.

In the Newfoundland Legislature
Friday resolutions were introduced
showing indignation because England
had allowed the colony to negotiate
a reciprocity treaty with the United
States and then refused to let it be
ratified. During the discussion sev-
eral of the most conservative members
expressed strong sentiments in favor
of annexation and in condemnation
of the unfriendly attitude of Canada.

The funeral services over the re-
mains of Gen. Sherman will take place
Thursday from his late residence,
though it may be deferred if his son
does not arrive on that day from Eu-
rope on the Majestic. Thursday even-
ing the body will be taken to St. Louis
on a special train and will be interred
there. It will be in charge of General
Schofield and will be accompanied by
a delegation from Post Lafayette, G.
A. R., of New York.

The effect of the anti-lottery act,
passed at the request of Postmaster
General Wanamaker at the last ses-
sion of Congress, is shown by the fall-
ing off of the volume of money order,
postal note and registered letter busi-
ness at the New Orleans post office. A

statement of money orders paid dur-
ing twelve weeks of last year, as com-
pared with the same period this year,
shows a decrease in the number of
16,643, and in amount of \$90,000.
During the same period the number
of postal notes paid fell from 82,593 to
8,676, and the amount paid decreased
\$110,000.

New Discovery.

TUCSON, February 16.

EDITOR PROSPECTOR: The A. and H.
'health resort' is again bubbling with
excitement, the like of which is not
even within the ken of the oldest citi-
zen. Early in the present decade a
prominent journalist of this city dis-
covered in a "rugged and precipitous
defile" of the Santa Catalinas the
ruins of a long lost pueblo, adjacent
to which were numerous shafts that
had been sunk in ages past, for in one
of them was a giant subnara fully
70 feet high, only a small portion of
which appeared above the surface.
Before the scribe could locate a cor-
ner lot or catch a pre-historic subscriber
he was compelled to flee for his life
from numerous bears, and in his flight
fired the specimens of ore he had gath-
ered at his pursuers, since which all
trace of this nook in those bulwarks to
the "sanitarium of the southwest"
were supposed to have vanished. A
few years later, while hunting for this
relic of the past, the editor discovered
in one of the box-canyon cliffs an
old weather worn iron door leading to
an ancient Jesuit mine, the seclusion of
which was so perfect that it was
not necessary to be made a matter of
record. Lately a new and important
discovery has been made, being the
finding of a flight of stone steps lead-
ing down into a veritable cryptogram
of workings, which show ruby and
native silver in vast extent, sparkling
with gold. And the most wonderful
thing of all, which the posted few have
been trying to keep quiet, is that the
old iron door has been found to be
another opening to this treasure vault,
which is now known to lie immedi-
ately beneath the "lost pueblo" of the
first find. There is trouble and dis-
content here, however, over the fact
that this discovery is so close to the
Final line that that county may claim
it, and it is proposed to introduce a
bill in the Legislature that shall cut
off a liberal slice of Final and insure
this new discovery to good old Pima
and her sanitarium.

A Safe Investment.

store.

A Fish Story.

(Gazette)

Captain Tevis is a very successful
fisher, but if Speaker Clark tells the
truth on him, he ought to be expelled.
He says that before Tevis started out
to fish, he went to a Chinese restau-
rant and purchased a dozen fish (fresh
ones.) The Chinaman not having the
requisite number of the fresh fish,
took four or five fried fish from the
table and put into Tevis' basket. The
captain can't see as well as he could
twenty years ago, and didn't notice
the cheat, but just before the crowd
began to fish, it was noticed that the

Cochise law-maker took a position up
the river several yards and lost out of
sight of the rest of the company, and
was only fishing a few moments,
when he landed a fine fish, then the
second and third, and the rest had
not gotten a bite. Tevis was in high
glue, and was induced to laugh at his
unlucky comrades. By and bye one
of the party, curious to know how
Captain Tevis had caught six large
fish, while the balance of the party had
not even got a bite, arrived at Tevis'
side just as that gentleman landed an-
other whopper. The intruder thought
the fish very limp on the hook, and
taking hold of it was astounded to
find that Captain Tevis had caught a
fried fish; in fact already salted for
eating. Looking at the fish and then
at Tevis, the assemblyman from Yar-
apai exclaimed, "Tevis, I have always
heard that the Salt river was remark-
able for its productions, but d—n if I
ever thought that perch pies grew on
the trees and fried fish swam in
the river." Tevis looked at the fish
for a second and exclaimed in disgust,
"well, d—n that Chinaman."

FOR NEURALGIA & HEADACHE
use Rough on Pain. Instant relief for
Rheumatism, every ache. ROUGH
ON CORNS. Liquid 15c. Salve 10c.

Henry Marquand has a claim near
Turquoise, but a short distance north,
which is turning out some of the rich-
est rock in that section. He will make
a shipment in a few days. The ore
is a chloride and very rich in silver.

Cure for Rheumatism.

G. G. Treat, of West Granville, Mass
writes of ALLOCK'S POROUS PLASTER:
"For rheumatism, neuralgia, pain in
the side or back, coughs, colds, bruises
and any local weakness, they truly
possess wonderful curative properties.
I have recommended them to my
with the happiest results, many of
whom but for ALLOCK'S PLASTERS
would be in a crippled condition at
home. In every instance where they
have been faithfully and properly ap-
plied the remedy has been wonderfully
satisfactory."
